STATEMENT REGARDING OPERATING PROCEDURES

i2way Corporation has established operating procedures to ensure compliance with the Federal Communications Commission regulations regarding the protection of customer proprietary network information ("CPNI").

In keeping with the Commission's requirements, i2way Corporation has implemented a system whereby the status of a customer's CPNI approval can be determined prior to the use of CPNI.

Additionally, i2way Corporation educates and trains its employees regarding the appropriate use of CPNI. i2way has established disciplinary procedures to address

situations where an employee may have violated the CPNI procedures established by i2way.

i2way maintains a record of its sales and marketing campaigns that use its customer's CPNI. i2way also maintains a record of any and all instances where CPNI was disclosed or provided to third parties, or where the third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as part of the campaign.

Further, i2way has established a supervisory review process regarding compliance with the CPNI rules pertaining to outbound marketing situations and maintains records of carrier compliance for a minimum period of one year. Specifically, i2way's sales personnel obtain supervisory approval of any proposed outbound marketing request for customer approval regarding its CPNI.

I, Brent Jaybush, hereby certify this 6th day of February, 2006, that I am an officer of i2way

Communications Corp. and that I have personal knowledge that i2way Corporation has established operating procedures that are adequate to ensure compliance with the Customer Proprietary Network Information rules set forth in 47 C.F.R. §§ 64.2001-2009.
